

# A Textbook of **INVERTEBRATE ZOOLOGY**

## **About the Book**

In order to understand the basic concepts and also to get a reasonably adequate account of principal types, an undergraduate zoology student needs a text which is not only well illustrated but also has a clear, simple, and easily understandable language. 'A Text Book of Invertebrate Zoology' is an humble attempt in this direction. With their long teaching experience of nearly four decades, the authors have tried to consider every detail from the students' point of view before including it in the text. Although primarily meant for pass and honours B. Sc. students of Indian Universities, some portions of the book would serve the purpose of postgraduate students as well. If this volume gets the desired response, this attempt would have served its purpose.

## **(Contents)**

Introduction  
Classification And Nomenclature  
Phylum Protozoa  
Amoeba  
Entamoeba  
Elphidium  
Euglena  
Trypanosoma  
Monocystis  
Malarial Parasite (Plasmodium)  
Paramecium  
Vorticella  
Protozoa-Characters and Classification  
Representatives of Protozoa  
Notes on Protozoa  
Phylum Porifera  
Scypha (Sycon)  
Porifera  
Notes on Porifera

Metazoa  
Hydra  
Obelia  
Aurelia  
Metridium (Sea Anemone)  
General Characters and Classification  
Polymorphism  
Phylum Platyhelminthes  
Fasciola Hepatica (Liver Fluke)  
Taenia Solium (Tape Worm)  
General Characters & Classification of Platyhelminthes  
Notes on Platyhelminthes  
Phylum Aschelminthes  
Nematoda  
Phylum Annelida  
Pheretima- The Common Earthworm  
Hirudinaria-Indian Cattle Leech  
Phylum Annelida  
Comparative Account of Three Types

Palaemon (Freshwater Prawn)  
The Scorpion  
The Grasshopper  
Periplanata-The Cockroach  
Mosquitoes  
The Honey Bee-Apis  
The Housefly (Musca Nebulo)  
Arthropoda  
Arthropoda-General Notes  
Phylum Mollusca-Pila, Apple Snail  
Unio (Fresh-Water Mussel)  
Classification And Representative Types of Mollusca  
Notes on Mollusca  
Phylum Echinodermata- The Starfish (Asterias Rubens)  
Echinodermata-General Characters And Classification
