INSTANT ENTOMOLOGY

(Comprehensive objective textbook for ICAR—JRF/SRF/NET/ARS)

The present book entitled “**Instant Entomology**” is designed to swiftly become a ready reckoner for the entire discipline of entomology. The best effort has been made to include every detail of each branch of entomology, including Insect Morphology; Insect Taxonomy; Insect Physiology; Insect Ecology; Biological Control; Host Plant Resistance; Insect Toxicology and Pesticide Residue; Pesticides Application Techniques and Equipment; Integrated Pest Management; Pests of Field and Horticultural Crops; Pests of Stored Products; Insect Vectors; Apiculture; Sericulture; Lac Culture; Pests of Household, Medical and Veterinary Importance and their Control; Mites, Snails, Slugs and Vertebrate Pests; and Molecular Approaches in Entomological Research are enriched with recent advances. Questions are very carefully designed so that they cover the entire subject in detail and presented in clear language for simple reading. Hope this book would be of paramount importance for graduate and postgraduate students designed to compete for **ICAR-JRF/SRF/NET/ARS**, interview, viva-voce, comprehensive, and other competitive examinations. It will also be a very helpful resource for educators and anyone interested in the study of entomology.

M.S. Sai Reddy | Somala Karthik
V.K. Dubey | Gummudala Yashaswini

(Contents)

- Insect Morphology
- Insect Taxonomy
- Insect Physiology
- Insect Ecology
- Biological Control
- Host Plant Resistance
- Insect Toxicology and Pesticide Residue
- Pesticides Application Techniques and Equipments
- Integrated Pest Management
- Pests of Field and Horticultural Crops
- Pests of Stored Products
- Insect Vectors
- Apiculture
- Sericulture
- Lac Culture
- Pests of Household, Medical and Veterinary Importance and their Control
- Mites, Snails, Slugs and Vertebrate Pests
- Molecular Approaches in Entomological Research
