VETERINARY BIOCHEMISTRY

ISBN: 978-93-89350-36-4

Price: Rs. 695/-

General Veterinary Biochemistry textbook is basically for students who aspire to appear in various entrance examinations. The book will be useful for students preparing for ICAR, ASRB, NET, JRF, SRF, UG and PG level. The book is written according to the VCI curriculum thus can be used as a ready reckoner for undergraduate, post graduate and doctoral students. Each chapter of the book includes an introductory part followed by multiple choice questions.

This book covers all the aspects of General Biochemistry hence, it can be used by the students as a nutshell to prepare in a systematic way and boost up the preparation. The vast information on Veterinary Biochemistry represented in this book is prepared in such a way that it serves as a concise guide not only to veterinary graduates and post-graduates but also to the students of medical sciences and field veterinarians. Further, a book on Metabolic and Analytical Biochemistry in continuation of this General Biochemistry is under review that will be released in a couple of months.
